Re: Septic System Additive
Nature's Whey/Specific Enzyme Bacteria System (S.E.B.S.)
Transmittal # W058600

Dear Mr. Patel:

The Department has received and reviewed your application, dated March 28, 2005, for the use of Nature's Whey/Specific Enzyme Bacteria System (S.E.B.S.) as a septic system additive, in accordance with Sections 15.027 and 15.028 of Title 5 (310 CMR 15.000).

It has been determined that this product which, according to the application and information supplied by you subsequent to the application, contain non pathogenic gram positive and gram negative bacillus, will not harm the septic system components, including the biomat, or adversely affect system function or the environment when used on a schedule recommended by the manufacturer.

The Department hereby allows the use of this product as a septic system additive subject to the following conditions:

1. The allowed use is for the Nature's Whey/S.E.B.S. septic system additive constituents only, as described and contained in Permit Application BRP WP 62, application # W058600, submitted on March 28, 2005 and not an approval for any other additive produced or equipment distributed by Enviro Science Technologies, Inc. ("the Company") or by any other entity.
2. Prior to distribution of the Nature's Whey/S.E.B.S. septic system additive for sale or use, the Company shall test each product batch for the presence of Enteric Pathogens, including Salmonella, Shigella, Campylobacter, utilizing American Public Health Association methods for the identification and isolation of enteric pathogens. The presence of enteric

pathogens in any product batch shall result in discarding the whole batch in accordance with applicable requirements. The Company shall maintain testing results for three years following each testing date.

3. Enviro Science Technologies, Inc. shall notify the Department at least thirty (30) days in advance of the proposed transfer of ownership of the corporation or of the right to produce the product for which this allowance is issued. Notification shall include the name and address of the new owner/entity and a written agreement between the existing and new owner/entity containing a specific date of transfer. All provisions of this allowance shall be applicable to the successors and assigns of the Company.
4. The Department's determination to allow the use of this product does not constitute an endorsement or approval with respect to the benefit, effectiveness, or performance of the additive. Any promotional representation that refers to the allowance of this product shall include the sentence:

"Allowance of this product does not represent an endorsement or approval by the Department of Environmental Protection with respect to the effectiveness or performance of this product".

Should you have further questions or need additional information, please contact Ron White, at 617/292-5790.

Sincerely,

David Ferris, Acting Director
Watershed Permitting Program
